

## NEWS RELEASE

October 30, 2018  
For immediate release

### **TransAqua announces 2018 compost facility closing for the season**

**RIVERVIEW, N.B.** – TransAqua, the Greater Moncton Wastewater Commission, announced today that its 2018 compost facility will be closing for the season at 3:45pm on November 2, 2018. TransAqua wishes to extend our gratitude to our loyal customers and new customers this season. We look forward to seeing you in may 2019.

More information regarding the quality of TransAqua’s compost can be found on TransAqua’s website at [www.transaqua.ca/environment/compost](http://www.transaqua.ca/environment/compost). Please sign up to receive updates and information from TransAqua. Detailed product information sheets are also available at the Delong Drive compost facility. Residents may also contact the compost facility by calling 387-7977. Please note that compost is not available at TransAqua’s wastewater treatment facility in Riverview.

TransAqua, the Greater Moncton Wastewater Commission, ([www.transaqua.ca](http://www.transaqua.ca)) was established in 1983 to support the wastewater collection and treatment needs of the Dieppe, Moncton and Riverview tri-community. Since then, it has developed a 31 kilometre collection network and a treatment facility to best deliver on this mandate. It has also become a leader in the reuse of biosolids through the generation of high quality compost as opposed to disposal in a landfill site. TransAqua is beginning its WWTF Upgrade and Modernization Project in 2017 to provide an enhanced secondary treatment approach that will allow it to meet the mandatory federal regulations prior to the 2020 deadline.
