

NEWS RELEASE

June 1, 2018
For immediate release

TransAqua's Webcam is currently not operational

RIVERVIEW, N.B. – TransAqua, the Greater Moncton Wastewater Commission, has taken the webcam offline until the end of June 2018 so Inlet Building brickwork and roofing can be replaced as part of the WWTF Upgrade and Modernization Project. We thank the public for your patience and look forward to reactivating the webcam for the public to be able to view the progress on this Project at any time.

Please sign up to receive updates and information from TransAqua at www.transaqua.ca. Residents may also contact TransAqua at 387-7977.

TransAqua, the Greater Moncton Wastewater Commission, (www.transaqua.ca) was established in 1983 to support the wastewater collection and treatment needs of the Dieppe, Moncton and Riverview tri-community. Since then, it has developed a 31 kilometre collection network and a treatment facility to best deliver on this mandate. It has also become a leader in the reuse of biosolids through the generation of high quality compost as opposed to disposal in a landfill site.
