### **TransAqua appoints Chris Petrie, P.Eng. as Wastewater Systems Engineer**

**RIVERVIEW, N.B.** – TransAqua – is pleased to announce the appointment of Chris Petrie, P.Eng. as its new Wastewater Systems Engineer.

Chris joins TransAqua with a strong water and sewer background in both the industrial and municipal sectors. He has held progressive management roles throughout his career; the latest being an Operations Manager with Saint John Water. His operational experience in wastewater systems combined with innovative thinking and problem solving ability make Chris a perfect fit within the TransAqua team. Chris will be part of the TransAqua team undertaking the \$90.4 million plant upgrade getting underway in 2017.

“As an Environmental Engineer, Chris brings a wealth of knowledge and experience that is beneficial to TransAqua’s wastewater treatment and compost operations” says TransAqua General Manager Kevin Rice. “As part of succession planning, Chris will be on site during the WWTF Upgrade and Modernization Project construction and will gain the benefit of knowledge transfer from TransAqua’s Director of Technical Services who has been with us for over 25 years”.

### **About TransAqua**

TransAqua, the Greater Moncton Wastewater Commission ([www.transaqua.ca](http://www.transaqua.ca)) was established in 1983 to support the wastewater collection and treatment needs of the Dieppe, Moncton and Riverview tri-community. Since then, it has developed a 31-kilometre collection network and a treatment facility to best deliver on this mandate. It has also become a leader in the reuse of bio-solids through the generation of type ‘AA’ compost (the highest grade currently achieved in Canada) as opposed to disposal in a landfill site. The organization has positioned itself to upgrade its facilities to provide an enhanced secondary treatment approach that will allow it to meet the mandatory federal regulations prior to the 2020 deadline.
