

## NEWS RELEASE

April 6, 2020  
For immediate release

### **TransAqua announces a delay to the 2020 compost season opening**

**RIVERVIEW, N.B.** – TransAqua, the Greater Moncton Wastewater Commission, announced today that it is delaying the opening of its compost facility located at 399 Delong Drive in Moncton.

The public is advised that TransAqua's Compost Facility will remain closed until the New Brunswick State of Emergency is lifted. TransAqua is now preparing the Compost Facility to meet existing recommendations (i.e. physical distancing) for protecting the public and TransAqua's essential service employees once the State of Emergency is lifted.

More information regarding the quality of TransAqua's compost can be found on TransAqua's website at [www.transaqua.ca/environment/compost](http://www.transaqua.ca/environment/compost). Please sign up to receive updates and information from TransAqua. Detailed product information sheets are also available at the Delong Drive compost facility. Residents may also contact the compost facility by calling 387-7977. Please note that compost is not available at TransAqua's wastewater treatment facility in Riverview.

TransAqua, the Greater Moncton Wastewater Commission, ([www.transaqua.ca](http://www.transaqua.ca)) was established in 1983 to support the wastewater collection and treatment needs of the Dieppe, Moncton and Riverview tri-community. Since then, it has developed a 34.2 kilometre collection network and a treatment facility to best deliver on this mandate. It has also become a leader in the reuse of biosolids through the generation of high quality compost as opposed to disposal in a landfill site.
